## IS THE STALLION EARNINGS INDEX INFALLIBLE?

A. S. HEWITT

The so-called "stallion earnings index" is the brain child of J. A. Estes, for many years the editor of The Blood-Horse, Lexington, Kentucky.

Its workings can be summarized briefly. For any one year in any given country, the total purse distribution is divided by the total number of starters. The result gives the average earnings per starter. The average earnings per starter for any given stallion, divided by the average earnings for all starters, gives the earnings index for that stallion for that year. The Blood-Horse makes it sound more complicated than this, but essentially the above outline reaches the same result.

This system has a number of pronounced advantages. In the first place, it provides a common denominator for all stallions during any year, regardless of how many or how few starters any individual stallion may have had. Secondly, it provides a common denominator for stallions of different decades, and even different countries, whose stock may never have run against each other. St. Simon, foaled in 1881 in England, can be compared with Man o' War, foaled in 1917 in the U.S.A., and with Tourbillon, foaled in 1928 in France.

Prior to the introduction of the earnings index, comparisons were made largely on the basis amounts of money won, and to the places attained in the sires ranking list. For different decades and different centuries these straight earnings comparisons were largely illusory.

The aim of the earnings index is, of course, to show merit on the basis of opportunity, which is based on the number of starters representing each stallion and the amount of money available to be won.

One thing the earnings index, as now constituted, does not take into account is the quality of mares bred to each stallion. Being silent on this point, it necessarily assumes that opportunity in this all important branch is the same for all. This is obviously far from the case.

A great horse like Citation, had the selection of a very choice lot of mates upon his retirement to stud, whereas a horse like \*Heliopolis did not. Yet there would be a few to-day who would deny that, on their records to date, \*Heliopolis has proved the better sire of the two. Considering their

## THE CHRONICLE

relative opportunities in their early years at stud, the inherent superiority of \*Heliopolis becomes still more marked.

Is there any way that this serious omission can be repaired in the method of the stallion earnings index? Estes has blandly stated in The Blood-Horse more than once, that "there is nothing else available." This is untrue, and his own work points the way to go to work.

Estes and others have conclusively shown that there is a very marked correlation between the racing class and the breeding class of both stallions and mares. This being so, what is to stop the comparison between the racing class of mares bred to a given stallion, and the racing class of their foals by that stallion? The extent to which these foals are superior or inferior to their dams should give a reliable index to the genetic merit of their sires.

Years ago, the writer worked out such a comparison for about twenty of the best known stallions in the U.S.A. The results were striking and by no means in accord with generally accepted opinions. Some interesting features came to light from these studies. For example, almost any stallion will improve on the worst class of mates; and no stallion will produce from a group of mares all of which are of allowance class or better, a group of foals all of which are of allowance class or better.

This method of comparison proved, in fact, more revealing and was perhaps a more accurate measurement than the present earnings index method. A combination of the two would mark a long stride forward in understanding inheritance in Thoroughbreds.

## Tom Fool Syndicate

The organization of the syndicate which has taken over the ownership of Tom Fool (Menow-Gaga) consists of 35 shares of which Greentree Stud retained 15, the remaining 20 shares being sold at \$50,000 each, giving the horse a value of \$1,750,000. Howell E. Jackson and Christopher J. Devine each have two shares. Those holding one share each are Mrs. John P. Adams, Charles M. Baxter Jr., James Cox Brady, Calumet Farm of Mrs. Gene Markey, Erdenheim Farm Company of George D. Widener, Dr. Loren P. Guy, Hanes and Combs, Inc., of John W. Hanes and Leslie Combs 2d, George M. Humphrey, King Ranch of Robert Kleberg Jr., Lazy F. Ranch of Mrs. E. H. Gerry, Maine Chance Farm of Mrs. Elizabeth Graham, Paul Mellon, Mrs. Henry C. Phipps, Ogden Phipps, Mrs. J. R. H. Thouron and C. V. Whitney.

## Getting The Inside Of Racing

Raleigh Burroughs

We are living in the "Getting to Know You Better" Age, and television is the leading prospector in the ore fields of private lives.

Brash interlocutors ask impertinent questions of sports figures, politicians, actors, gangsters, drunks and dope fiends. We are taken into the homes of opulent persons who are requested to reveal their hobbies, offspring, current spouses and how they happened to get their hooks into all that loot.

The intimate touch was added to football when the officials began to wear transmitting microphones. The referee now adds such illuminating bits of dialogue as "Captain Malinowski, of the Horned Lizards, meet Captain Wajohovitz, of the Unicorns."

"Captain Wajohovitz, as representative of the visiting team, will call as I toss the coin."

Captain Wajohovitz mumbles, "Heads," the coin is tossed and hands are shaken all around and the game begins.

Sometimes the referee will introduce his corps of aides, right out loud so everybody watching TV can tell he's saying something, even though it is impossible to catch the names. (And who cares?)

Experiments have been made with continuing the speeches made by the referee throughout the game. This never has been completely satisfactory, possibly because of technical difficulties; or maybe the referee blew his whistle without warning and punctured the sound man's eardrums. It is possible, also, that some of the conversations between the official and offending players were deleted by the purifying filters of the Federal Communications Commission.

### Racing And Television

In recent months, television has put racing fans in more intimate touch with the sport by connecting the wires with Mr. George Cassidy, starter at the New York tracks and at Hialeah.

Usually, Mr. Cassidy is too far away for the viewer to appreciate his fine features and elegant dress, but his voice comes through just as though he were standing beside you.

"Stay in there with him, Frank," you will hear the starter say, and then, "Sit STILL, Potts. Get your whip down, Blum," and other orders to other riders

and assistant starters. After a moment's pause, the gate fronts fly open and somebody shouts, "They're off!"

That's the last you see or hear of Mr. Cassidy. He is relegated to oblivion without hearing the applause. He HAS had the opportunity for an encore since the video tape "repeats" have been made part of the program.

After the race, the winning jockey, trainer, owner and any loose track officers that may be hanging around are interviewed until time runs out.

During the 1959 Hialeah telecasts, elegant interrogators conducted pre-race interviews with trainers. In a high percentage of the cases, they selected the conditioner of the destined winner, and the horse forgot the word that the stable was trying. It was a great season for rac-

ing fans in northern bars who knew where they could get it down.

Undoubtedly, as the years go on, electronics engineers will overcome all the technical difficulties. Then the intimacy may be expanded to a point where thorough coverage of all facets of the race will be possible for the ear as well as the eye.

After Mr. Cassidy is cut off, the race-caller will come in, but he will speak in low tones, like the gents who cover golf matches. The innovation will be instituted to permit the television spectator to get right down with the horses.

When the start is effected, the announcer will say, "And now we switch you down to Mr. L. C. Cook, aboard Silver Creek Farm's Roman Colonel. The next voice will be Mr. Cook's."

Then you will hear Mr. Cook talking to his friend, Roman Colonel, and fellow members of the Jockeys' Guild. This advancement, of course, is contingent upon the invention of the Blackout Selector, which expunges noises that are offensive to the FCC. This device has not yet emerged from the experimental laboratories. When perfected, it will cause the needle to skip certain words and terms designated by the governing authority of television.

However, the super close-up camera will permit the serious student of racing

## England's Famous NEW ZEALAND RUG

The only horse blanket that always stays in place

Horsemen returning from England have asked us to import these famous blankets. These are the greatest all purpose horse blankets made. The only blanket that stays in place on a horse even after a night in the stall or turned out in the field. Made of heavy green scrubable canvas chemically treated (making it waterproof and mildew resistant). A woolen lining makes this one of the strongest and warmest blankets ever. Many horsemen report more than ten years use from their "New Zealand Rugs".

Note the removable leg straps to fasten around hind legs keeping blanket from shifting or turning and preventing its being ripped by the horse. The 3" folded surcingle has a strong leather billet... it passes through strong leather slots. Leather reinforced at neck. The strap at breast as well as the leg straps and surcingle strap are

made of waterproof chrome leather that will never harden.

The entire blanket is beautifully constructed, shaped and reinforced at all points of strain. For stable and turnout your "New Zealand Rug" will prove a great economy as the years go by.

## New Stallions in Pennsylvania

George J. Kappler

Another highly successful racehorse and sire, personified by the 16 hand, 1,200 lb., Cosmic Bomb, has been added to Pennsylvania's diversified stallion ranks. After standing for 10 years as a syndicated stallion at Henry Knight's Almahurst Farm in Kentucky, Cosmic Bomb, dk. B., 1944, by \*Pharamond II-Banish Fear by Blue Larkspur, was purchased at the Keeneland Fall Sales by Marian duPont Scott and the Charles B. Lymans and moved to the latter's Maui Meadow Farm at Pocopson, near West Chester, Pa.

As a racehorse, Cosmic Bomb won 11 races and \$250,000, including 7 stakes for Wm. G. Helis, after being purchased as a yearling for \$29,500 from his breeder John B. Hertz. He demonstrated class and versatility by outstanding victories in the Arlington Futurity over Jet Pilot and in the Cowdin Stakes over Colonel O'F at two and by 5 stakes successes at three: Drexel Handicap over Fervent & Say Blue (1 mile in 1.35 3/5 w/121 lbs.); Discovery Hcp over Double Jay & Phalanx (1-1/8 in 1.51 1/5 w/126 lbs.); Trenton Hcp over Double Jay & Earshot (1-1/8 in 1.48 2/5 w/120 lbs.); Roamer Handicap over Double Jay & Flashco (1-3/16 1.58 1/5 w/128 lbs.); Lawrence Realization over Phalanx &

Snowgoose (1-5/8 2.42 4/5 w/114 lbs.)

As a sire of over 100 winners totaling almost \$2,000,000, Cosmic Bomb numbers the brilliant Federal Hill among his stakes winners. Although Federal Hill won \$212,000 in 10 exhibitions of blinding speed, he is best remembered for his loss by a scant nose to Barbizon in the 1956 Garden State Stakes with Clem, Iron Liege and Bold Ruler in the beaten field. The mares that have produced stakes winners by Cosmic Bomb possessed one common denominator - outcrossings of either \*Teddy or Fair Play bloodlines, or both. As an added incentive to market breeders, it is noted that Cosmic Bomb's sales yearlings averaged over \$6,000 in 1959.

Cosmic Bomb's stakes placed son, Count Cavour stands nearby at C. L. Twaddell's Fair Acres, Westtown, Pa. This 17 hand gray is a 1/2 brother to Kanace, the dam of Vertex.

Two other exceptionally well-bred prospects will be introduced as stallions at Frank F. Truscott's Fox Trail Farms, Newtown Square:

\*AUGHILL, b., 1953 by \*Royal Charger - \*Da Ve by Dastur. This is the third son of

the 3rd Leading Sire to stand within a 10 mile radius of West Chester, in the fertile limestone belt of southeastern Pennsylvania. \*Sun Charger's first foals are due soon at Sydney W. Glass' Grange Farm, while \*King's Charger's first two-year-olds will appear in the livery of J. C. Giangiulio's Castle Rock Farm.

\*Royal Charger, now standing for \$10,000 Book Full, had out 7 U.S. stakes winners of 14 stakes in 1959: Idun (4), Finnegan (3), Royal Native (3), Royal Orbit (Preakness), \*Seaneen, Irish Lancer, Irish Cousin.

\*Aughill, a \$15,000 sales weanling, demonstrated early maturing speed by winning the 5 1/2 furlongs Dover Stakes at Delaware Park in 1.05 1-5 for the Barclay Stable of John McShain. The track record of 1.04 2-5 is held by \*Aughill's "uncle" - \*Northern Star; the 2nd dam of \*Aughill being Venus by Gold Bridge, who produced \*Northern Star, a winner of 6 stakes & 123,000 and now a successful sire in Maryland of 21 winners from 2 crops. \*Aughill should do well when bred to Blandford line mares. It should be noted that although \*Aughill is a derivative of a speed family, undoubtedly tracing to Gold Bridge, he is inbred in the third generation, thru Sun Princess and Dastur, to Solario, a source of Stamina.

**QUOTATION**, b., 1954 by Citation-Level Best by Equipoise. This 16.3 hand blueblood has a pedigree as "big" as he is, being by a Derby winner out of an Oaks winner. His parents even excelled that optimum goal, as Mr. Millionaire won the Triple Crown and 18 other stakes including the Futurity and Jockey Club Gold Cup. In addition to the Coaching Club American Oaks (1-3/8 mi.), Level Best won 6 stakes at two and the Top Flight Handicap at four.

Citation had out 3 stakes winners in 1959 - Silver Spoon (5 stakes), Sky Clipper (Sapling) and Recite (full sister to Quotation).

In addition to Recite and Quotation by Citation, Level Best has produced Level Lea by Bull Lea who won 3 stakes & \$120,000 including the Jockey Club Gold Cup, and is now standing in Virginia as a successful sire of winners from his first two crops. The 2nd dam of Quotation was Speed Boat by Man o'War, a stakes winning full sister to War Relic and the 3rd dam of Sword Dancer. This branch of the No. 1 family seems to produce the desirable classic traits of staying speed. Quotation has been a wire to wire winner at Belmont & Delaware Parks. He should do well when bred to mares with Phalaris, Blue Larkspur or perhaps \*Blenheim II bloodlines.

Mention of the stallions standing in the Keystone state for 1960 cannot be made without noting that \*Half Crown (Hyperion), the sire of Tempted the "Best Race Mare of 1959" is standing at Richard E. McDevitt's Hillsover Farm near Malvern, Pa.

#### \*AMYN BEY

#### CORRELATION

Correlation (Free America-\*Braydore, by Roidore), winner of \$330,000 and one of the most popular stallions currently standing in Florida (Grant A. Dorland's Roseland Farm, Ocala), was bred to 25 mares in each of his first two seasons at stud and got 80% in foal. He will be bred to 32 mares in 1960, his third season, 26 being owned by the Correlation Syndicate, and six being outside mares.

## New Stallions In Kentucky

Frank Talmadge Phelps

A total of two dozen new stallions had been listed for 1960 stud duty in Kentucky by the first of the year. This number includes not only horses entering the breeding ranks for the first time, but also imported horses launching their initial American stud seasons.

As usual, mare owners may find among the new Kentucky stallions a wide range of stud credentials, fees and conditions to suit their specific requirements.

They include classic winners, handicap stars, crack two-year-olds; stayers, middle-distance performers, sprinters; established sires among the imports; and others whose chief attraction lies in pedigree rather than in performance or previous stud attainments.

Announced fees range from \$300 to \$12,500, with many stud prospects at both ends of the price scale standing for private contract, under syndicate ownership, or with other special conditions which are not susceptible to reduction to a specific sum.

Two of the new Kentucky stallions are sons of the late \*Nasrullah.

Moreover, the imported group includes \*Tudor Minstrel and his son \*King of the Tudors.

The heart of the Bluegrass accounts for the entire group of Kentucky stud newcomers, since all will hold court within 18 miles of Lexington. In fact, 14 of them will stand at Lexington farms, eight at breeding establishments near Paris, and two at Versailles.

Half a dozen Kentucky farms are represented by two new stallions apiece: Leslie Combs II's Spendthrift Farm, Lou P. Doherty's Stallion Station and Don R. Hardesty's Bonnie Braes Farm, all near Lexington; A. B. Hancock, Jr.'s Claiborne Farm and Carter Thornton's Threave Main Stud, both at Paris; and Joe C. Metz's Mare's Rest Farm, Versailles.

Following is an alphabetical list of the new Kentucky stallions, with a condensed discussion of each.

# Trojan Monarch

**\$300 LIVE FOAL**

Br.H., '50, \*PRIAM II-EVENING BLUE, by BLUE LARKSPUR  
(Property of Hon. Geo. A. Garrett)

He won his first three starts, was then second in a stakes, at 2, followed by an injury which forced his retirement.

From his first three small crops, he had twelve that started during the last three years on the important eastern tracks. Eleven have won at least twice. The twelfth, TROBAR, ran second twice, and third twice as a two-year-old in 1959.

Now is the time to breed to him, while his fee is still low. His top line is PHALARIS, his bottom DOMINO. And he is a beautiful big horse to look at, and a sure foal-getter, of very handsome foals.

In 1959, BONZO, won three allowance races and was beaten only a neck in the Kent Stakes at Delaware Park. GAYLAD, racing as a two-year-old last year, won five races and was second twice, for a total of \$13,500.

## AND NO WONDER . . . . .

TROJAN MONARCH was a very fast horse himself, winning his first three starts, then second in a stakes, at 2, before an unfortunate injury forced his retirement. With such early promise, no telling what he might have gone on to do. He brings to mares not only his own tremendous speed and handsome looks but also a potent cross of the great English PHALARIS on the great American DOMINO.

Though he has stood for more or less private use by Mr. Garrett and a few of his friends; to attract outside mares his fee has been set at the low figure of

\*Le Beau Prince won 8 races and placed in stakes including the Vosburgh Handicap, Trenton Handicap and Narraganset Special.

\*Le Beau Prince's pedigree is one of the most interesting male lines of modern French breeding. His sire, Fontenay, was a top race horse. His grandsire, Tornado, has been for many years among the top sires in Europe and sired Tiepoletto, the best 2-year-old in France in 1958. This is a male line with the stamina for which French race horses are noted and the early speed necessary for success in America. This versatility of pedigree is evidenced in \*Le Beau Prince's race record in this country, as he beat the top sprinters at 6 furlongs and the best of our handicap division at the Classic distances.

#### THE HEART OF HIS PEDIGREE

ASSEMBLYMAN was one of the better 3-year-olds of 1957. He won the \$25,000 Narragansett Sophomore Special easily from Ambehaving and the \$20,000 Independence Day Stakes at Narragansett from Big Paddy and Inswept. He was also second to Promised Land in the Knickerbocker Handicap and Lawrence Realization Stakes, second to Vertex in the Boardwalk Handicap and second to Manteau in the Yankee. He won at 2 and 3, and earned \$87,799.

The heart of Assemblyman's pedigree is the heart of the tremendously successful Beaumont Stud in Kentucky. He is a son of Menow (sire of Tom Fool and Capot) and is out of the Hurricane Handicap winner Libba, out of the brilliant daughter of Man o' War and Alcibiades, Salamina. The latter won the Alabama Stakes and the Ladies' and Gallant Fox Handicaps. Salamina produced, to the cover of Menow's sire Pharamond II, the \$105,710 stakes winner Athenia, the dam of Aesthete. The dam of Assemblyman's sire and the granddam of Assemblyman's dam is Alcibiades, one of the great foundation mares of modern American Turf history.

The grand-dam Lull by \*Bull Dog is responsible for 8 winners including the top 2-year-olds DETECTIVE and ALBATROSS. ### POLYNESIAN DEAD

The syndicated-owned Polynesian (Unbreakable-Black Polly, by \*Polymelian), one of the most successful stallions of recent years, died on the morning of December 28th of a twisted intestine at the age of 17. During four years of racing, beginning in 1944, Polynesian won 27 out of 58 starts and \$310,410. He won the Preakness and Withers Stakes and many handicaps carrying high weight and set three track records at six furlongs and another at a mile and one-sixteenth. In his first crop he got the stakes winners Thataway and Tonga. In 1956, he set a modern record when six of his two-year-olds were stakes winners including Alanesian and Barbizon. As a stallion, however, he is best known as the sire of Native Dancer.

### SINGING GRASS

Singing Grass, dam of the 1954 Epsom Derby winner, recently died at the Jonabell Farm of John A. Bell 3d, near Lexington, Ky. Never Say Die was bred by the late Robert Sterling Clark and was dropped at the farm where his mother died. As a youngster he was moved to Mr. Clark's Sundridge Farm near Upperville, Va., and later shipped to England where he spent his entire racing career and where he now stands at stud. Singing Grass suffered a fractured pelvis three years ago and has never been well since.

### VIRGINIA'S FIRST FOAL

Mrs. M. E. Person of Llangollen Farm, Upperville, Va., reports the arrival of the first foal in that state, a bay filly foaled at 1:30 a.m. on January 1st, by Mister Gus out of Week-End, by \*Endeavour II. Week-End won five races and was placed in the Hollywood Oaks and California Junior Miss Stakes.

## Experimental Free Handicap

Bellehurst Stable's California-bred Warfare, everybody's choice as the top two-year-old Thoroughbred racing in 1959, has been assigned high weight of 126 pounds in the 1960 edition of the annual Experimental Free Handicap. The poundages, assigned by Frank E. Kilroe, Racing Secretary and Handicapper for The Jockey Club, appear in the January issue of The Racing Calendar, official publication of that organization.

Closest to Warfare in the weights is Sunny Blue Farm's Venetian Way at 124 pounds, followed by C. V. Whitney's Tompion at 123 pounds. In all, eight of the 125 Thoroughbreds weighted were assigned 120 pounds or more. Top filly on the list, all of which became three-year-olds on January 1st, is Mrs. Frances Genter's My Dear Girl at 117 pounds.

Warfare earned his topweight position by winning his last three starts of 1959 in commanding style. The well-built gray colt had an overall record for the year of finishing in the money in 11 of his 14 starts, but the last three wins clinched all honors for him. Flying east to Aqueduct from California in September, Warfare put together victories in the Cowdin and Champagne at the new track, and then finished off the year with a win in the Garden State at that New Jersey track. These three victories provided the son of Determine with the bulk (\$340,235) of his \$394,610 earnings for the year, which were only \$1,850 off the record set by First Landing in 1958. 1960 did not start too well for Warfare as he finished second to T. V. Lark, weighted in the Experimental at 115 pounds, at Santa Anita on January 6, but the 1100-pound colt was also slow coming around to his best form as a two-year-old. Warfare's first two starts at two netted a fourth and a third

before he won his first race on May 23rd. In his succeeding seven California starts, Warfare was only victorious in the C. S. Howard Stakes and an allowance affair, but owner Clifton S. Jones followed the advice of trainer Hack Ross and shipped the colt east to meet the best youngsters in the country in the Fall season.

Warfare's first effort at Aqueduct was a second in allowance company and then the charcoal gray colt established a track record of 1:22 3/5 in winning the seven-furlong Cowdin. Twelve days later, Warfare again ran in track record time, a mile in 1:35 1/5, to win Aqueduct's Champagne Stakes. Then on October 31, Warfare completed his 1959 campaign with a half-length victory over Bally Ache in the Garden State.

Warfare's 126 pound package is scale weight for the theoretical event as compared to last season's top import of 128 pounds given Meadow Stable's First Landing and the all-time top of 132 given Count Fleet in 1942. While First Landing proved a disappointment, Kilroe's next four, last year, were the Kentucky Derby winner \*Tomy Lea; the American Derby and Arlington Classic winner Duncie; the sprinter of the year, Intentionally, and Sword Dancer, unanimous choice as the horse of the year.

The Experimental ratings were begun in 1933 by Walter S. Vosburgh and following his death, none were issued in 1934. The late John B. Campbell did the scalings from 1935 through 1952 after which Mr. Kilroe assumed the task. The weights were applied to an actual race in 1940 at Jamaica continued for approximately a decade at varying distances.

Venetian Way and Warfare never met during the season as the former competed in Florida and Chicago while Warfare was

campaigning in California and the east, but Venetian Way finished the year almost as strongly as Warfare. In his last two starts of 1959, the chestnut colt won the Prairie State and Washington Park Futurity, the latter in track record time of 1:15 4/5 for 6 1/2 furlongs. It was in this Chicago race that Kilroe received a common denominator for his two top choices: Edgehill Farm's Bally Ache.

Bally Ache, to be scaled 4th on the list with 122 pounds, finished a half length back of Venetian Way in the Washington Park Futurity and was the same distance astern of Warfare in the Garden State. But to Warfare's credit were two additional defeats of Bally Ache in the Cowdin and Champagne which made the difference.

Tompion (123) was another of the year's more consistent performers finishing out of the money in only two of his twelve races. The son of Tom Fool, who headed the 1951 Experimental, reached the top of his form in winning Saratoga's Hopeful Stakes but was second in four other stakes and was only a length back of Warfare in the Champagne.

Sharing the 122 pound position with Bally Ache is Pebblebrook Farm's Irish Lancer, forced into retirement at the end of the summer with a bone chip in his knee. Prior to an operation to remove the chip, which was successful, Irish Lancer defeated Tompion and others in the Saratoga Special, and in all won 4 of 7 starts.

Three horses share 120 pound weightings this year: Winfield Farm's Victoria Park, Mrs. D. J. Kennedy's Vital Force and Greentree Stable's Weatherwise. Victoria Park, a Canadian-bred, won his last three stakes of the year including Aqueduct's Remsen; Vital Force, a gelded son of Degage, bred in Virginia, won five stakes over five different tracks, and Weatherwise, like Tompion a son of Tom Fool, won the Futurity and Sanford Stakes.

Winner of 11 Races. Never Unsound. He defeated most of the top horses running at his time.

In the 1953 \$10,000 Gold Cup Prep at Hawthorne, over 1 1/8 miles, UNBRIDLED scored by a head, beating such good performers as Sub Fleet, Smoke Screen, Golden Trend and The Gink in 1:49 4/5, only 3/5's of a second off Oil Capitol's track record. That same year he finished second by a head to Recline in the \$25,000 Illinois Owners Handicap at Hawthorne, over 1 1/16 miles, and won the \$7,500 Glen-coe Purse, beating Bugledrums and Oil Capitol over 6 1/2 furlongs. In 1952 UNBRIDLED showed that he could sprint with the best by beating Coffee Money and Spartan Valor by one and one-half lengths, over seven furlongs. In 1949, as a two-year-old, he won the \$20,000 Hyde Park Stakes, at Arlington Park, beating Duchess Peg and Bully Boy over 5 1/2 furlongs in the good time of 1:05 2/5.

Assuming that the Blackout Selector soon will be invented and put to use, the TV race-follower will get the story from the jockey's mouth, as follows: (\*Indicates word removed by Blackout Selector) Quote ".....", and unquote.

As the race progresses and the going really gets tough, it may be necessary to censor even the close-ups of the jockey's lips.

When the field turns for home, the announcer may say, "We will now switch you to the judges' stand, to see what's

going on there."

And you may be sure that there will be something going on.

"They're coming," you'll hear one judge say.

"We got time to finish the hand?" another may ask.

"Think not. Remember that Teacher thing. You can't even trust the photo these days. Good gracious, they're here! I got six, two and four. What did you get?"

"I got six, two and four, too. What did you get, Smitty?"

"Was awful close. I'm going to wait for a dry print."

This gives a rough idea of the great things we can look forward to if the

Other departments of racing that should be interesting if given the intimate treatment are the mutuels room, the camera department, the press box, the racing secretary's office and the ladies' lounge.

A little imagination could carry this idea a long way.

## Chronicle Cover

The third Duke of Grafton was, during the first decade of the nineteenth century, the most successful breeder and owner of racehorses in England. They were largely the descendants of the celebrated broodmare Penelope, by Trumpator, who not only bred him eleven racers of eminence, but two Derby winners in Whalebone and Whisker. He died the year following Whalebone's Derby, and his son, the fourth Duke, carried on with success surpassing that of his father, for he won six Two Thousands, eight One Thousands, seven Oaks, and one Derby - Whisker in 1815.

Whalebone, a brown horse, was foaled in 1807, son of Waxy from Penelope (dam of Web, Woful, Wilful, Wire, Whisker, Wildfire and Windfall by Waxy, Waterloo by Walton, Whizgig by Rubens, Waltz by Election and Wamba by Merlin). At three years old, Whalebone started for eight races and won seven, including the Newmarket Stakes and Epsom Derby. In 1811 he won the King's Plate, four miles. In 1812 he won the King's Plate, Northampton Gold Cup and at Newmarket defeated Pan, the Derby winner of 1808, over a four-mile course. In 1813 he won the King's Plate at Guilford and several other King's Plates.

He was a small horse, never over 15 hands and a half an inch, a horse of fine length, sound legs but bad feet, being contracted, and high on the heel and full of fever. Indeed, it is stated that in later years he seldom moved out of his box. With such defects, he was disliked by the breeders and at seven years old he was sold for 510 guineas to the Earl of Egremont, who tried to train him, but without success.

But Whalebone was destined to become the most fashionable sire of his generation. His influence on the Thoroughbred blood has been tremendous. His full brother Whisker was a far superior horse in appearance, and a successful racer and sire, but his male line was maintained by Harkaway alone. On the other hand, Whalebone through his two sons Sir Hercules and Camel, has exerted greater influence than any horse of the nineteenth century. From the Sir Hercules line, came Birdcatcher, The Baron, Stockwell, Rataplan, Doncaster, Bend Or, Ormonde, St. Albans, Lord Lyon, Orme, Leamington, Faugh-a-Ballagh, Cyllene, Isonomy, etc. From the Camel line of Whalebone came Touchstone, Orlando, Teddington, Surplice, Newminster, Lord Clifden, Hampton, Hermit, Swynford, Bayardo, etc.

### HONEST HANDICAPPER

You seldom find many race selectors as candid as the one at the Prince Albert, Saskatchewan, three-day meet. Last summer racing patrons were pleasantly surprised on the final day on reading the racing program to find that the handicapper, after giving his selections for the first six races, was apparently stumped on the seventh. As a result, under "Selections", he wrote: "No clues." E.O.

### N. Y. RACING BOOM

Due largely to the success of the fall meeting of the newly opened Aqueduct Race Course, 1959 was a record season for racing in New York. For the first time, attendance passed the 5,000,000 mark, 6.14 per cent more than the previous year. Mutuel betting jumped 15.24 per cent, revenue to the State of New York, 15.48 per cent, and purse distribution, 20.8 per cent.

## MORE ALBERTA LIGHT HORSES FOR ROYAL WINTER FAIR

At a recent meeting of the Alberta Horse Breeders Association in Edmonton, a committee was chosen to approach the provincial government to request that a larger number of light horses be sent in the Alberta livestock exhibit to the Royal Winter Fair next fall. It was pointed out that of the 26 horses sent to this year's fair only six were representatives of the light breeds.

### AIRS AND GRACES

Airs and Graces, the dun gelding on which Mrs. Sheila Willcox Waddington won the Badminton Three Day Event in England last spring, has been purchased by Mrs. Allen McIntosh and is now at Sunnyfield Farm, Bedford, N.Y. In the European Three Day Championship Event held at Harewood, England this past autumn, Airs and Graces was tied for first in the Dressage event, and had maximum bonus points in the Steeplechase phase on the second day, only to fall and be eliminated when he slipped coming into a fence during the Cross-Country phase. Unquestionably he is one of the leading Three Day horses in the world.

Six of his horses have been named Hunter of the Year by the American Horse Shows Association, the green conformation horses being the current champion Sunset Hill, Ace of Diamonds, Camedia and Shannondale. The conformation hunters have been Count to Ten and Miss Warlock. He has also developed five 3-year-old hunter champions of Virginia: Sunset Hill, Came Across, Camedia, Corpond and Startime.

### MEXICAN JR. AGRICULTURAL EDUCATION

Officials of the first annual Agricultural and Livestock Show of northwestern Mexico at Matamoros, Tamaulipas, Mexico, just across the Rio Grande River from Brownsville, Texas, are inaugurating a state-wide program of junior agricultural education similar to the 4-H and FFA programs in the United States. Senor Alberto Buerton Rivero, chief of the state bureau, and Senor Martin Espinosa, state special agent, have made several visits to the annual Rio Grande Valley livestock show at Mercedes, Texas, the largest show in the country held solely for the benefit and advancement of 4-H and FFA boys and girls. It is hoped that the Mexican program will lead to annual competitions between the students of both the U. S. and Mexico at these annual shows.

#### AT BLAKISTON RANCH

Two first flight open jumpers, which have been shown in most of the big shows in the East, have found "a little gray home in the West" at the Blakiston Ranch in California.

Springboard, who won the International Stake at Harrisburg for the Olympic Team, has been added to the string of jumpers owned by Mrs. William Rains of Beverly Hills.

The Deacon, winner of the \$2,000 jumper stakes at Harrisburg, goes to the show stable of G. E. McAfee.

The above two additions to the Blakiston Ranch organization should give that outfit a strong stable of contenders for the jumper honors on the coast. M.R.

#### REX KING

#### NEPONSET RANCH

The well-known stud farm, west of Sheridan, Wyoming, formerly the Neponset Stud, will be known henceforth as Neponset Ranch. It is a partnership consisting of Amelia Forbes Thomas, Ellen Cotton and Bill Gardner, who will also be manager. Standing for the 1960 season will be Ky. Knight, a dark bay horse foaled in 1947 by Lovely Night out of Ortalsi, by The Porter. Most of the ranch's mares are of Aloha Moon descent. Jester's Moon, timber horse of the year 1950 and winner of the Maryland Hunt Cup in 1951, owned by Mrs. John Strawbridge, Jr., was bred at Neponset. A more recent product is Coke High, owned by Mr. Louis Neilson III, who ran 4th in the 1959 Maryland Hunt Cup.

## **ARMAGEDDON**

h., '49, Alsab—Fighting Lady, by  
\*Sir Gallahad III

Second Experimental highweight, he was given 4 lbs. below TOM FOOL, though he once beat this horse giving him 9 lbs. He won the Champagne, Withers, Peter Pan, Ventnor (track record), Benjamin Franklin; 2nd in Arlington Classic (giving 8 lbs. to the winner MARK-YE-WELL), Travers, Olympic, Stars and Stripes (by a neck, new track record), Boardwalk; 3rd in Flamingo, Belmont, Longfellow, Palm Beach, and nearly \$200,000.

He has two crosses (top and bottom) of both COLIN and ST. SIMON. He goes back in tail female to ARTLESS, whence have descended so many brilliant horses.

(Property of Harry F. Guggenheim, Esq.)

**\$500**

## **DUC de FER**

br., '51, Spy Song—Lady Waterloo, by  
\*Quatre Bras II

Best son of the speedy SPY SONG and one of the fastest horses of his day. He won stakes at 2, 3, 4, 5 and 6—\$225,791—at about every important race course in the U. S. He won from 3 fur. to 1½ miles. He beat HASTY ROAD in a famous duel—with the others nowhere. He beat MISTER GUS each of the four times they met—notably in the Pageant Handicap in which he gave him 9 lbs.

He has the staunchest American blood on both sides of his pedigree, going to COMMANDO on top and to HINDOO ROSE on the bottom.

(Property of Tuckhoe Farms)

**\$500**

## **VICTORY MORN**

br., '55, \*Nasrullah—Good Morning, by  
\*Sir Gallahad III

He was a good racehorse himself, being ninth highweight on the Blood-Horse Handicap for 3-yr.-olds, with four wins at 3 and \$81,352, including the Dwyer, 2nd in Am. Derby and Providence Stakes, etc.

In addition, just mark in each of his first three female generations (a) the number of good winners, (b) the number of good horses they beat, (c) the number of important races they won (Ky. Derby, Dwyer, Wood, Matron, Selima, Grand Union, Choice, Astoria, Beldame, Adirondack, Starlet, Hiawatha, etc.).

It's this sort of class in pedigree that successful stallions come from.

There is no better bred son of \*NASRULLAH at stud anywhere.

(Property of Harry F. Guggenheim, Esq.)

**\$500 (First Season)**

Also ALQUEST, at \$500, sire of winners of nearly \$2,000,000.
